1968

Your partner for doors and gates.

Innovation & Tradition.

geba® GmbH

For over 50 years geba® GmbH has been manufacturing switchgear for the door and gate market and is a family-run business in its third generation now. Based on European and German patents, geba is still one of the leading entities in the European supply industry for automatically operated doors and gates. Long-standing expertise, new patents and the quick implementation of suggestions from our customers have led to a continuous expansion of our product range. The portfolio comprises nearly all electrical and electronic systems required for the control of electrified doors or gates.

PRODUCTION

The keyswitches are produced in Germany, France, Great Britain, Switzerland and Slovak Republic. Around 100 dedicated employees ensure, that you will receive the products as soon as possible. As a future-oriented company, we rely on our competent specialized staff, who are skilled in the development of new technical possibilities as well as modern machinery. While the mechanical manufacturing process is still a traditional and crucial component of the production, we possess automated SMD robots and special machines for sealing our codies, which were only developed for us. Combining tradition with innovation is absolutely magnificent for our company. We usually deliver small and medium quantities (up to 500 pc) from stock (24 hour service). From 1000 pieces within a very short time. Whether you desire one of our standardized goods, or your own customer-specific design, we print, mill and engrave each order individually with precision.

WAREHOUSE

We own large warehouses for all products and our just-in-time delivery saves you from having a big stock. Benefit from our quality, reliability and long-time experience.

VDE/BS/ KEMA

For a long time we have been experts to achieve the highest possible quality standards and to guarantee customer satisfaction. Every switchgear will be carefully controlled by us through modern methods. Of course, complying with guidelines such as VDE, BS and KEMA and thus operating in line with market requirements is necessary. Safety and quality are certainly the maximum in our production according to our employees and are implemented in all our control devices.

FIRST CLASS SERVICE ALL OVER EUROPE

Thanks to our Europe-wide network, you can also purchase geba® switchgear in your area. In Germany through any electrical wholesaler or directly from us at sales@geba.net. You can find our complete portfolio at www.geba.net.

GEBA - YOUR PARTNER FOR DOORS AND GATES
