light grey
Ref.: 905.BW01.00

Bracket for Twinkle-Star Mini
anthracite
Ref.: 905.BWM1.00

Twinkle-Star

The Twinkle-Star has 9 or 18 LED's. It depends on the version, you can order either the LED flashing light with 9 LED's or the LED universal rotating- and flashing light with 18 LED's. Based on the arrangement of its 6 circuit boards the universal rotating- and flashing light has 4 different functions, which is very unique: rotating light, permanent light, flash and blink. Whatever you prefer, the Twinkle-Star is able to change its lighting functions immediately. Based on its 3 circuit boards the LED flashing light includes 3 different functions: blink, flash and permanent light. Our Twinkle-Star catches the attention quickly by shining bright. The Twinkle-Star can be mounted directly on a post or with the help of a bracket on the wall. The Twinkle-Star Mini contains 3 different functions: blink, flash and permanent light.
